**Flood Control Channel Completion Due in 1966**

Completion of construction to enclose the 18-mile Dominguez Channel in a concrete straitjacket from its headwaters at the International Airport in Inglewood to its outlet near the Ford plant in Wilmington is tentatively set for

the spring of 1966, Supervisor Kenneth Hahn reported this week.

The project, which is being built on a "pay-as-you-go" basis by the County Flood Control District, is expected to play a key role in reducing the flood threat in the southeast section of the county.

Three multi-million dollar contracts are currently under way on the channel improvement. To date, about \$27 million has been allocated to the overall project by the Flood Control District. Total cost of the entire job is expected to be around \$3 million.

Financing of the project has been provided from the regular Flood Control District tax and the drainage artery is being built as funds become available.

Its completion will be a major accomplishment in protecting the millions of citizens and their property living in the overflow area of the previously untamed watercourse, Supervisor Hahn said.

**North High Senior Gets TV Credit**

Diane Turnquist, daughter of Mr. and Mrs. M. A. Turnquist of 3435 W. Artesia Blvd., appeared recently on the hour-long Bing Crosby special on the CBS television network.

Miss Turnquist, a senior at North High, is a member of the "Young Americans," a mixed teenage choir. The group did the opening number and a medley of folk songs on the show.

The pert Saxon miss made her first television appearance with the "Young Americans" on "Happy Birthdays USA," a Fourth of July special. The group also sings at banquets, one of which recently honored the President of India.

She was selected by Saxton choir director Daniel Walker to audition for the group.
